Jason Banks
Director General
Dept. of Environmental Regulation
Locked Bag 33
CLOISTERS SQUARE
W.A. 6850

Your Ref:CEO687/15

Dear Jason

Thank you for your short note dated 29th April 2015 in which you state that you have nothing further to add to the advice already provided.

We take that to mean that we were correct in our assuming that as you were unable to provide copies of data of noise testing conducted around our former home between 2002 and 2007 when Mr. Macpherson made his assumption that we were not noise affected, they either do not exist or do not show what you have previously claimed.

In view of the large financial loss this ill advised assumption created for us and many others in the Yarloop Township, I find your reluctance to take responsibility and provide this information, whatever it may or may not say an insult.

However as you will not provide proof of your claims we must look elsewhere and ask Mr. McPherson's companion, Mr. Gillam of the DoH or his Executive Director Professor Weeramanthri when meeting with them later today.

It is sincerely hoped that we can have this matter settled as soon as possible, without the need to involve Ministers or the State Ombudsman.

Thanking you for your attention and in anticipation.

Yours sincerely

T.A. Cockerham

S.M. Cockerham (Mrs.)

8th May 2015
